

I am Nipun Nohria, a student of FIITJEE Amritsar Centre.

I initially joined the One year programme of FIITJEE in 8th class. The excellent Teaching-learning environment inspired me to further enroll for the four year programme that would help me in Advanced preparation. The experienced faculty, extensive study material and rigorous doubt sessions are the special features of FIITJEE Amritsar.

During lockdown our classes were conveniently shifted to online mode. The online tests on Myfat familiarised us with the exam pattern and created competitive spirit. The AITS tests were designed to be challenging just like the actual JEE-Advanced. The Grand Master's Package helped me to strengthen every chapter upto Advanced level.

It was the motivation and strong support built up at FIITJEE, in addition to my own hard work, because of which I could clear exams like KVPY,

IQRM, NSEA, JEE-MAINS and finally secured a rank of 146 in JEE-ADVANCED.

I strongly recommend FIITJEE as a one step destination for all.
